This game is legendary. probably the most realistic game I've ever played. It is insanely fun and intense. Truly an amazing horror game. It is incredibly scary and I assure you, you won't be sleeping for a while after playing this. There is nothing more satisfying than blasting your way through a bunch of little heads (children). I highly recommend this game for anyone who is looking for an extremely realistic horror game.. There is no possible way of downloading the "Ultra Texture Pack". 0V10. Asinine game design:

Complete all level objectives, including obtaining \$2000 and reducing global trace level below 50%. Continue playing. Accrue more than \$5000 and spend money on huge firewall upgrade. Use large trace level buffer to hack hidden (bonus) servers. Exhaust all options on this level and attempt to progress to next; cannot. Hit F2 and review level objectives again. Objectives for obtaining money and reducing trace level are now marked incomplete. Cannot progress because elected to spend acquired resources on better equipment and use low trace level for server exploration. Punished for playing too well. Refuse to replay 30-minute level; uninstall.

Play Street Hacker and mess around with mods for Uplink instead. Please someone make a truly amazing new hacking game.. A very shadowish bullet hell. 1 hour full of fun with light and shadow.. I've just completed the game and overall I've had a pretty enjoyable experience.

From reading other reviews you can probably tell that there's clearly a few imperfections in it and it a couple of ways it felt a little unfinished, but and this is a big but, I think that the positive by far outweigh the negative.

The Downside

- There's no voice acting, only written dialogue, but to be fair given the price of the game I'll actually take this, and no voice acting is actually better than bad voice acting
- There's a couple of pathfinding bugs during battles (usually solved by moving the camera around or going in and out of inventory)
- The arena battles go on and on and on (especially if you don't release that you can get through them quickly by not trying to complete the whole lot of them... it took my 18 rounds of a particular one, and I don't want to give spoilers but let's just say that a bit clearer sign posting would have made that it didn't)

The Upside

- The balance in the game is beautifully done, I think set loot drops play a big part of this, but at no point did I feel that battles were too hard or becoming too easy. I think this really shouldn't be underestimated in a game, at no point was Dwarf Run coming grindy for me, and as a result it's one of the few rpgs that I've played through to the end.
- The story is fun, again without giving spoilers, it's different, it'll have you scratching your head a couple of times, and it's in some ways pretty simple, but put simply its engaging, it leave you always wanting to see around the next corner I was a lot more curious about where everything was going than in some AAA titles where you have to defeat the 9 lords of blah blah before finding out that they were just minions of the 12 gods of yada yada.
- The levelling system actually makes you stop and think, it does something really really well which upon reflection make you wonder why other games haven't been doing it. For instance, a spell will cost you 1 point to learn, it might still only cost you 1 point to get a second copy of it, but the third copy might then cost you 2 points, a forth copy might be 3 points. The result it that you can't just one trick pony your way through battles, you have to have to plan a bit and make yourself a strategy in order to succeed.
- Those arena battles end up being strangely addictive.

So the verdict is clearly a thumbs up from it, I hope that we get to see more games from the same developer, a sequel perhaps, that said I also hope that any sequel we do get doesn't move away from the formula that's been set up here in the first Dwarf Run. Even with a bigger budget I hope that any follow up games retain what Dwarf Run has at its core, and that's Charm.

. Super cute little platforming run-n-gun game. It only provides a single stage (plus a modified version for Hard Mode, which is

unlocked after completing the normal mode), but it's worth checking out nevertheless.

The platforming is nice and tight, and the movement/firing mechanics are very cool. If you're on the fence about Kero Blaster, this should give you a good idea of if you'll like it.

What I found cool about Pink Hour is that you can complete the game, both in Normal and Hard Mode, without firing your projectile at enemies. You can actually complete it without damaging any enemies at all, including the boss. I think that shows a certain level of care and detail that was considered when making what comes down to what is essentially a demo.

Highly recommend this, for people who haven't played Kero Blaster, have played Kero Blaster, or anyone ever, basically. Very cute, very fun. Worth a look for sure.. This game is absolute garbage. Go and buy Cat Sorter VR instead, which is clearly where this idea was taken from, but fails to deliver in practically every area that made Cat Sorter VR enjoyable.

Cat Sorter VR was fun because it was full of bizarre bodyparts from different creatures that you could stick onto your cat. In this game, there are 3 boxes, and all those boxes contain are normal dog heads, normal dog legs, and normal dog tails. So if you want to pay \$10 AUD to stick a head, some legs and a tail on a dog body, go for it, but for 99.9% of people, this game will be a tremendous waste of your money.

Hard pass.

I was bored as\u2665\u2665\u2665\u2665\u2665on the long car ride down to North Carolina. Then I remembered I had this glitch ridden Anti Insurgent game. It's only \$0.50 buy this\u2665\u2665\u2665\u2665\u2665 Good for boredom.. Puzzle Bots is a nice little point and click. Very cute with an interesting yet simple plot. Most of the puzzles are relatively straight forward but there are some real head scratchers in there and the final puzzle is a doozy! Nice and bright with simple and colourful animation. Voice acting good with some funny parts that give you the odd chuckle. If you're just wanting a little something to pass the time with the odd head scratcher thrown in with enough things to keep you interested, and a low price tag, this will probably be for you and will be quite universal. However if you are looking for more of a challenge where you really have to think outside the box this will probably be too easy for you and not scratch that itch. The use of the bots was easy, however occasionally it can be irritating when you have to switch between them quickly (you will know where I mean when you get to it).

I got this as part of a point and click puzzle pack and as a whole I thought it was a really nice, well made casual game that I could dip in and out of.. Are you tired of your boring, plain, dull looking cards in the game? Do you wish they had more pop and really had that shine to them? If you answered yes to either of those questions then this is the downloadable content for you. With this downloadable content you can convert your plain boring cards to fantastic looking cards that you wont be embarrassed to put down on the table. They will bring you confidence when playing and give you the courage to play those rare cards with style. This DLC converts all uncommon, rare, and mythic rare cards in the decks to premium foil cards which you can admire and look at and not get ashamed while looking at them. The great thing about this deck conversion taking place is that it converts the appearance of those dull cards and turns them into premium cards that shine like stars. The downfall to this DLC is that it gives no advantage at all to the gameplay but just the look of the cards that you are holding. Start shining for your enemies today!. With the Collectors Edition Upgrade it reached Gold Status. Very nice tracks and a very good physic engine. Looking forward for some more updates like a real shoot control.

In total is is a fantastic Golf Game!. Do I recommend this? Yes, the story was amazing, same with the plot twist. I was so surprised on how good this DLC.

10/10. Funny and fast game not only for children, give it a try! Don't want to delete anymore from your favorites games! Trust me!. Very polished for an EA game. Great, frenetic local multiplayer. Excited to try online multiplayer but sadly could not find anyone to play with. The Target Test mode is also a nice addition for anyone looking for some laid back solo fun. Heartily recommend this for all tank aficionados.
